OBJECTIVE

In early 2021 I started pursuing my passion and began developing skills in programming. I intend to pivot my career into web development and currently seeking an entry-level position in this field. I am a dedicated and quality-oriented professional. I find myself easily establishing and maintaining relationships with colleagues which has historically been increasing team's unity and productivity.

EDUCATION

National Aviation University (Kyiv, Ukraine) 2013

Master's degree - Electrical engineering

- Recipient of full merit based and athletic scholarship
- Member of the University Management Club
- Member of boxing team

National Aviation University (Kyiv, Ukraine) 2007 – 2011

Bachelor – Radio Electronic Devices

WORK EXPERIENCE

SkillUp Academy, Kyiv, Ukraine 2021 – present

Trainee front-end developer

- Preferably used modern JavaScript (ES6/7) library React.js for logic task accomplishment with TypeScript like good practices.
- Coded signed off designs into working web page templates in HTML5, CSS (LESS/SASS preprocessors) and then integrated those into content management systems.
- Used mobile first and pixel perfect technique. CSS Grids for building responsive websites with scalability in mind.
- Used React Redux for centralizing application's state and logic.
- Performed insightful and constructive code reviews, refactoring (from class to functional components etc.).
- Used Git versioning for coordinating work among programmers.
- Used Bootstrap, Material UI, Lodash, JQuery, Next.js.
- Worked with API calls and submitted requests to the server.
- Partnered QA in testing tasks.
