PROFILE

I am a QA automation tester with extensive web development skills. Having almost a decade of customer service experience, dedicated and quality-oriented professional. I find myself easily establishing and maintaining relationships with colleagues which has historically been increasing team unity and productivity.

EXPERIENCES

AUTOMATION TESTER   IN 2022
EPAM, MALAGA, SPAIN (MENTORING PROGRAM)

- Developed test automation frameworks from scratch
- Provided results report and debug.
- Conducted test planning, requirements testing.
- Worked with test cases, scenarios, defect reporting.
- Worked Git versioning.
- Conducted API automation testing with Postman.
- Perfomed CI/CD with Jenkins, pipelines with tests.
- Performed testing, with JS Automation frameworks: WDIO, Cypress.
- Used JS Tools: Mocha, Chai.
- Learned Agile, Scrum, Kanban and other project management tools.
- Tested WebServices.

FRONT-END DEVELOPER   IN 2021 - 2022
SKILLUP ACADEMY (APPRENTICESHIP)

- Preferably used modern JavaScript (ES6) library React.js for logic task accomplishment with TypeScript like good practices.
- Coded signed off designs into working web page templates in HTML5, CSS (LESS/SASS preprocessors) and then integrated those into content management systems.
- Used mobile first and pixel perfect technique. CSS Grids for building responsive websites with scalability in mind.
- Used React Redux for centralizing application's state and logic.
- Used Git versioning for coordinating work among programmers.
- Worked with API calls and submitted requests to the server.
- Partnered QA in testing tasks.
